Hand2Note Pro.Tools: noPOPUPs HUD

Dynamic HUD changes depending of the actions at the table

If you use this HUD, you can play without using pop-ups or with a minimum of use.

All the basic preflop and postflop stats will be displayed on the table depending on the players' actions and situations.

HUD is different for players before Hero and after Hero.

Depending of the preflop and postflop actions, additional statistics appear in the HUD.

HUD uses pre-flop flops and post-flop betsizings for a more visual representation of the ranges. (check additional description of badges)

HUD is adapted for players with few hands.

If there are samples - accurate statistics, no samples - total stats.

Video of gameplay with noPOPUPs HUD/Dynamic HUD

https://www.youtube.com/watch?v=YG3xGeGnuV0

Dynamic Stats

HUD is adapted for players with different numbers of hands and
preflop and postflop statistics automatically change to more accurate if there are samples.

It is made that in HUD there was that statistics which it is possible to use.

Clarification: No sample = total stats, have samples = more accurate stats.

What does it mean?

Players have different number of hands, there are new players, there are players with whom you often play. And it is important that you can better understand the players and make decisions based on their strategy.

When playing with new players you can use the general game statistics to understand their common game trends, and the players with which you often play can be more accurate statistics about how they split 3bet and calls in position and out of position, as well as how they fold to 3bet.

It is important that with the availability of samples, the statistics in the HUD automatically change to a more accurate one.

<u>Examples</u>: Statistics automatically change when there are samples.

The total 3bet is changed to 3bet in position (3bet IP) or out of position (3bet OOP), after this if there are samples, it changes to statistics, then player 3bet on this position, and after if there are samples, stats changes to Position vs Position statistics.

Total 3bet >> 3bet IP/OOP/ReSteal >> 3bet on Position EP/MP/CO/BTN/SB/BB/Straddle >> 3bet position vs position

Fold to 3bet >> Fold to 3bet IP/OOP/ReSteal >> Fold to 3bet on Position EP/MP/CO/BTN/SB/BB/Straddle >> Fold to 3bet position vs position

Fold Straddle vs BTN:
If there are samples then there will be statistics **Fold Straddle vs BTN**, if no samples then **Fold Straddle vs BTN+CO**

And other stats have same rules for changes from total to detailes stats: : LIMP / ISO Raise / iso3bet / SQZ.

	Color marker for player
	(You can change / add color in the settings: *Configurator/Color markers)*
28 6 1.9 21	26 - **VPIP**
	6 - **PFR**
	1.9 - **3beta**
	21 - **WTSD**
2.6k	**Hands**
172	**Stack size in Big Blinds**

Hand2Note Pro.Tools
Professional collection of Stats and HUDs

HUD for player before Hero

 Block with preflop stats for player before Hero
(*Total preflop stats / TOTAL*)
#1 Line: **PreFlop stats vsLimp**
OpenRaise and fold to 3bet when **was Limp**
#2 Line: **PreFlop stats noLimp**
OpenRaise and folds to 3bet when **NO Limp**

 25 – **isoRaise / Raise with Limp**
  0 – **Fold to iso3bet**
17 – **Call iso3bet**
  0 – **4bet vs iso3bet**
-- – **Fold 5bet**

 29 – **1stRaise / Raise NO Limp**
  0 – **Fold to 3bet**
13 – **Call 3bet**
  0 – **4bet vs 3bet**
-- – **Fold 5bet**

 31 – **Limp**
50 – **Limp/Fold**

 14 - **Total aggression**

*Clarification: Stats **Call3bet, 4bet,Call4bet, 5bet** in the HUD are in ranges form, these are not percentage stats.*

HUD for player after Hero

Block with preflop stats for player after Hero
(*Total preflop stats / TOTAL*)

19 – **CallOpen / ColdCall**

1.9 – **3bet**

-- – **Fold to 4bet**

0 – **Call 4bet**

0 – **5bet**

6 – **isoRaise** (Raise when was Limp)

1.3 – **iso3bet** (3bet when was Limp and isoRaise)

-- – **Fold to 4bet after iso3bet**

77 – **Fold to Steal**

The stats show a fold to steal relative to the position of Hero
(Player Position vs Position Hero)

This stat appears in the HUD starting with CO

3 – **SQZ / SQUEEZE**

-- – **SQZ/Fold / Fold to 4bet after SQZ**

30 – **Total aggression**
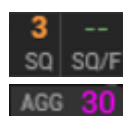

Changes in the HUD on PreFlop (1st Raise, 3bet and etc.)

Example HUD when was Limp and after was Raise.

Post-flop statistics structure

The structure of the pop-ups is constructed taking into account the need for compact statistics placement.

The circled stats in the block where there is **+FOLD** or **+BET** means action on the next street.

<u>Example:</u>
aft CHECK **–** Block of statistics after check on Flop

CBET **80** – **Check Flop / BET Turn**
+BET **99** - **Check Flop / Bet Turn / BET River**

FOLD **99** – **Check Flop / FOLD Turn**
+FOLD **--** - **Check Flop / Call Turn / FOLD River**

aft CHECK – Block of statistics after the Cbet on Flop and Check on the Turn

BET **0** – **Cbet Flop / Check Turn / BET River**
FOLD **99** - **Cbet Flop / Check Turn / FOLD River**

Hand2Note Pro.Tools
Professional collection of Stats and HUDs

Badges

The badges are the icons that appear in the HUD when there is a certain leak in the game.
They help less to use the pop-ups and it's better to see when the opponent has folds or has no folds more often.

Badges for PreFlop
1st Raise
Fold to 3bet
CallOpen
4bet
Fold 4bet
Fold 5bet
and others.

Badges for PostFlop
SingleRaisedPots (SRP)
3bet pots
4bet pots

BetSizes
PreFlop
PostFlop

Badges in the HUD

The Pro.Tools collection uses <u>positional placement</u> of badges with dynamic HUD changes.
This means that the badges will appear on the players in the HUD depending on the preflop, flop, turn and river actions.

Example: an opponent made a 3bet, you called and your opponent post-flop will have badges, which correspond only to the game in 3bet pots.
(in position or without position).

Description of the preflop and postflop badges on the site and in the folder on the desktop after installing of Pro.Tools package.

Description post-flop badges with recommended post-flop betting in the folder on the desktop after installing the Pro.Tools collection or you can request in skype.
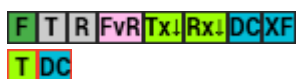

Postflop in SingleRaisedPots
PostFlop in 3bet pots

Clarification: Badges circled in red correspond to 3bet pots
(3bet or Call3bet)
